## **We are thrilled to be back in the theater for our Spring Performances!**

Young Dance has seen incredible growth this year. In 2019, we put down roots at the Fairview Business Center, our first permanent home. When the pandemic hit, we remained steadfast in our vision, using the time to lay the groundwork on which we continue to build. We have come back together, creating communities that protect, uplift, and support each other. We celebrate our individuality while using our collective power to push forward the change we want to see in the world.

This attention to the person and the group speaks to our theme, Radically One (Together). Every year at Young Dance, we approach the new academic year centering on an idea that informs all aspects of our programming. This year's theme was born from our programmatic intentions to foster an environment where students can safely and confidently express their individuality. Concurrently, we strongly believe in the power of building community through movement. Our values are rooted in a commitment to oneself, the group, and lifelong learning.

We have spent this year digging deeper into these words. Unpacking and dissecting the question: How can we support the individual, radically accept one another, build community, and fight collectively for the change we want (and need!) to see in the world?

Thank you to our steadfast and growing community, who have uplifted the voices of the young artists you will see this weekend. To the dancers, teaching artists, caregivers, staff, volunteers, board members, donors, and more, it is because of you we continue our commitment to serve and strengthen both the individual and their communities.

Sincerely,

Anat Shinar, Artistic Director

*Young Dance and the Luminary Arts Center occupy land that is of great historical, spiritual, and cultural significance to Dakota people. Young Dance is located on land of the Wahpekute and Očhéthi Šakówiŋ. We acknowledge the past and present harm done to Indigenous nations through the systematic forced removal of communities and the unjust seizure of their lands.*
